

# The First Integrated MSR xTablet

Powered by  
**MAGTEK®**

# Setting a new standard in mobile computing

Crowds are a thing of the past. Lines need to be shorter and faster. Patients need safe and personalized care. With a rugged mobile magstripe reader (MSR), businesses and healthcare organizations can adapt to the changing environment with ease – while improving workforce efficiencies, customer experience, and patient care with reliable device protection.

This is the first MSR to be designed and integrated for rugged tablets, setting a new standard across the mobile computing industry.

**Forward-thinking users understand the value of one integrated rugged productivity solution.**

# Markets & applications

## Retail

- Process payment and any other magstripe function with customers anywhere on the sales floor –speeding up lines and improving customer experience
- Complete secure transactions without making hand-to-hand contact
- Track inventory

## Restaurants & Hospitality

- Conduct seamless curbside orders and pickups
- Complete secure transactions without making hand-to-hand contact
- Maintain food safety regulations

## Healthcare

- Patient health history and insurance information collection
- Complete secure transactions without making hand-to-hand contact
- Employee badge login

# Key benefits

**MSR Productivity.** Operating on one device brings enhanced mobility and productivity. Employees armed with Flex 10 with MSR can engage directly with customers and patients alike – decreasing wait times, speeding up transactions and information gathering, and elevating engagement and experience.

**Protection.** The MSR is engineered using the same rugged materials and seamlessly integrated into the Flex 10 tablet, providing the durability and confidence that comes standard with each MobileDemand product. The tablet's proprietary shock-absorbing rubber corner bumpers and ridged shell protect the tablet in the most demanding environments.

**Convenience.** Several convenient features come standard with the Flex 10 with MSR, including an easy carry briefcase handle and back hand strap. Added peace of mind comes in the form of sealed ports for extra protection from the elements.

**Mounting.** Unlimited mounting solutions are made possible with the exclusive snap plate, included with every xCase. Used in conjunction with MobileDemand's patented Quick Release Snap Mount System, mounting to desks, walls, vehicles and so much more, is simply a snap.

# Key features

**Preconfigured.** The first of its kind, integrated magnetic stripe reader (MSR) is sleek, functional and is built to customer specifications for a seamless plug and play experience.

**Secure.** MagTek's MagneSafe® technology is a card authentication, patented and proven technology which reliably identifies counterfeit credit cards, debit cards, gift cards, ATM cards and ID cards at the point of swipe, before fraud occurs. Encryption scrambles the data when swiped, providing instant protection.

# Flex 10 line of xTablets

Two robust, lightweight, rugged devices. The Windows 10 based Flex 10B is powered by Intel's® Celeron N4100 Quad Core processor and the Flex 10A with Android 9.0 is VMware, SOTI and GMS certified, offering enterprise grade management features.

## xTablet Flex 10B

with Windows

Lightweight (2.07lbs)

Quick release mounting

Windows® 10 Pro
