

Meet the rugged Surface xCase
with optional integrated barcode scanner and MSR

Designed for Surface rugged barcode scanner and MSR solution

Now Microsoft® Designed for Surface® certified, MobileDemand's next generation Microsoft Surface Pro and Go Barcode Scanning and Magstripe Card Reader (MSR) cases are designed for peace of mind investment protection.

- **High performance barcode scanning**
- **Durable and reliable**
- **Fast and secure payment**
- **Mobile and easy-to-use**
- **Mountable**

Forward-thinking users understand the value of one integrated rugged productivity solution.

Designed for Surface

The Microsoft [Designed for Surface Certification](#) ensures that xCases for Surface devices meet Microsoft's requirements, are reliable, high quality, and fully compatible. Microsoft's Designed for Surface team performed rigorous testing of xCases with scanner and MSR to validate quality and total functionality with their industry leading Surface portfolio.

Why is the DfS certification important?

The DfS certification differentiates products from generic or unqualified solutions. Off-brand Surface accessories that do not carry this certification may not fit or function well, or worse yet, cause performance issues for the Surface device itself.

partner.mobiledemand.com

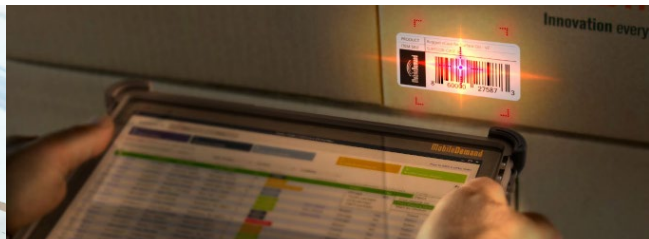

The industry's first rugged multi-tool

For decades, MobileDemand has offered rugged tablets and multi-function devices to increase throughput for every industry; with an array of applications such as mobile POS, barcode scanning, PIN pads, 3D imaging, and innovative tablet mounting options. The innovation in mobile payments and data collection gives users the full functionality of stationary systems, now with flexibility to process secure payments, swipe employee ID badges, and scan barcode labels on demand, anywhere, anytime, from a single device.

Rugged xCase with integrated barcode scanner for Surface Pro and Go

Incorporating a Honeywell® best-in-class barcode scanner with our rugged xCase for Surface offers greater range, quick scan speeds, and the ability to read a vast array of barcodes.

Rugged xCase with integrated magstripe reader for Surface Pro and Go

Secure and reliable MagTek® MSR technology combined with the rugged xCase from MobileDemand brings greater productivity to the mobile workforce and increased customer experience.

Rugged xCase with integrated scanner & MSR for Surface Pro and Go

The seamless integration of the Honeywell barcode scanner and MagTek MSR technology with MobileDemand's rugged xCase for Surface provides unparalleled protection.

Payment bracket combo bundle

MobileDemand transforms the Surface tablet into a rugged mobile POS tool with our payment module bracket combo bundle. Our team of engineers continue to develop an array brackets designed to fit an ever-expanding line of modules on the market today.

Markets & applications

Retail

- Quickly scan and identify packages, products, reward cards or parts.
- Process payment, gift cards, and more with customers anywhere on the sales floor—**speeding up lines and improving customer experience.**
- Complete secure transactions without making hand-to-hand contact—**promoting an environment for customers and staff to engage safely.**

Markets & applications

Restaurants & Hospitality

- Conduct seamless curbside pickup and ordering services that promote line-busting and pay-at-the-table solutions during peak business hours.
- Complete secure transaction without making hand-to-hand contact.
- Manage food safety practices and checklists effectively by replacing a clipboard with an easy-carry rugged tablet.

Markets & applications

Healthcare

- Collect and protect patient health history information at the bedside, reception, or self-service kiosks.
- Complete secure transactions with limited hand-to-hand contact—**promoting an environment for patients to engage with staff safely.**
- Swipe employee badges and perform other HR functions conveniently **from a single device.**

Key benefits

Productivity

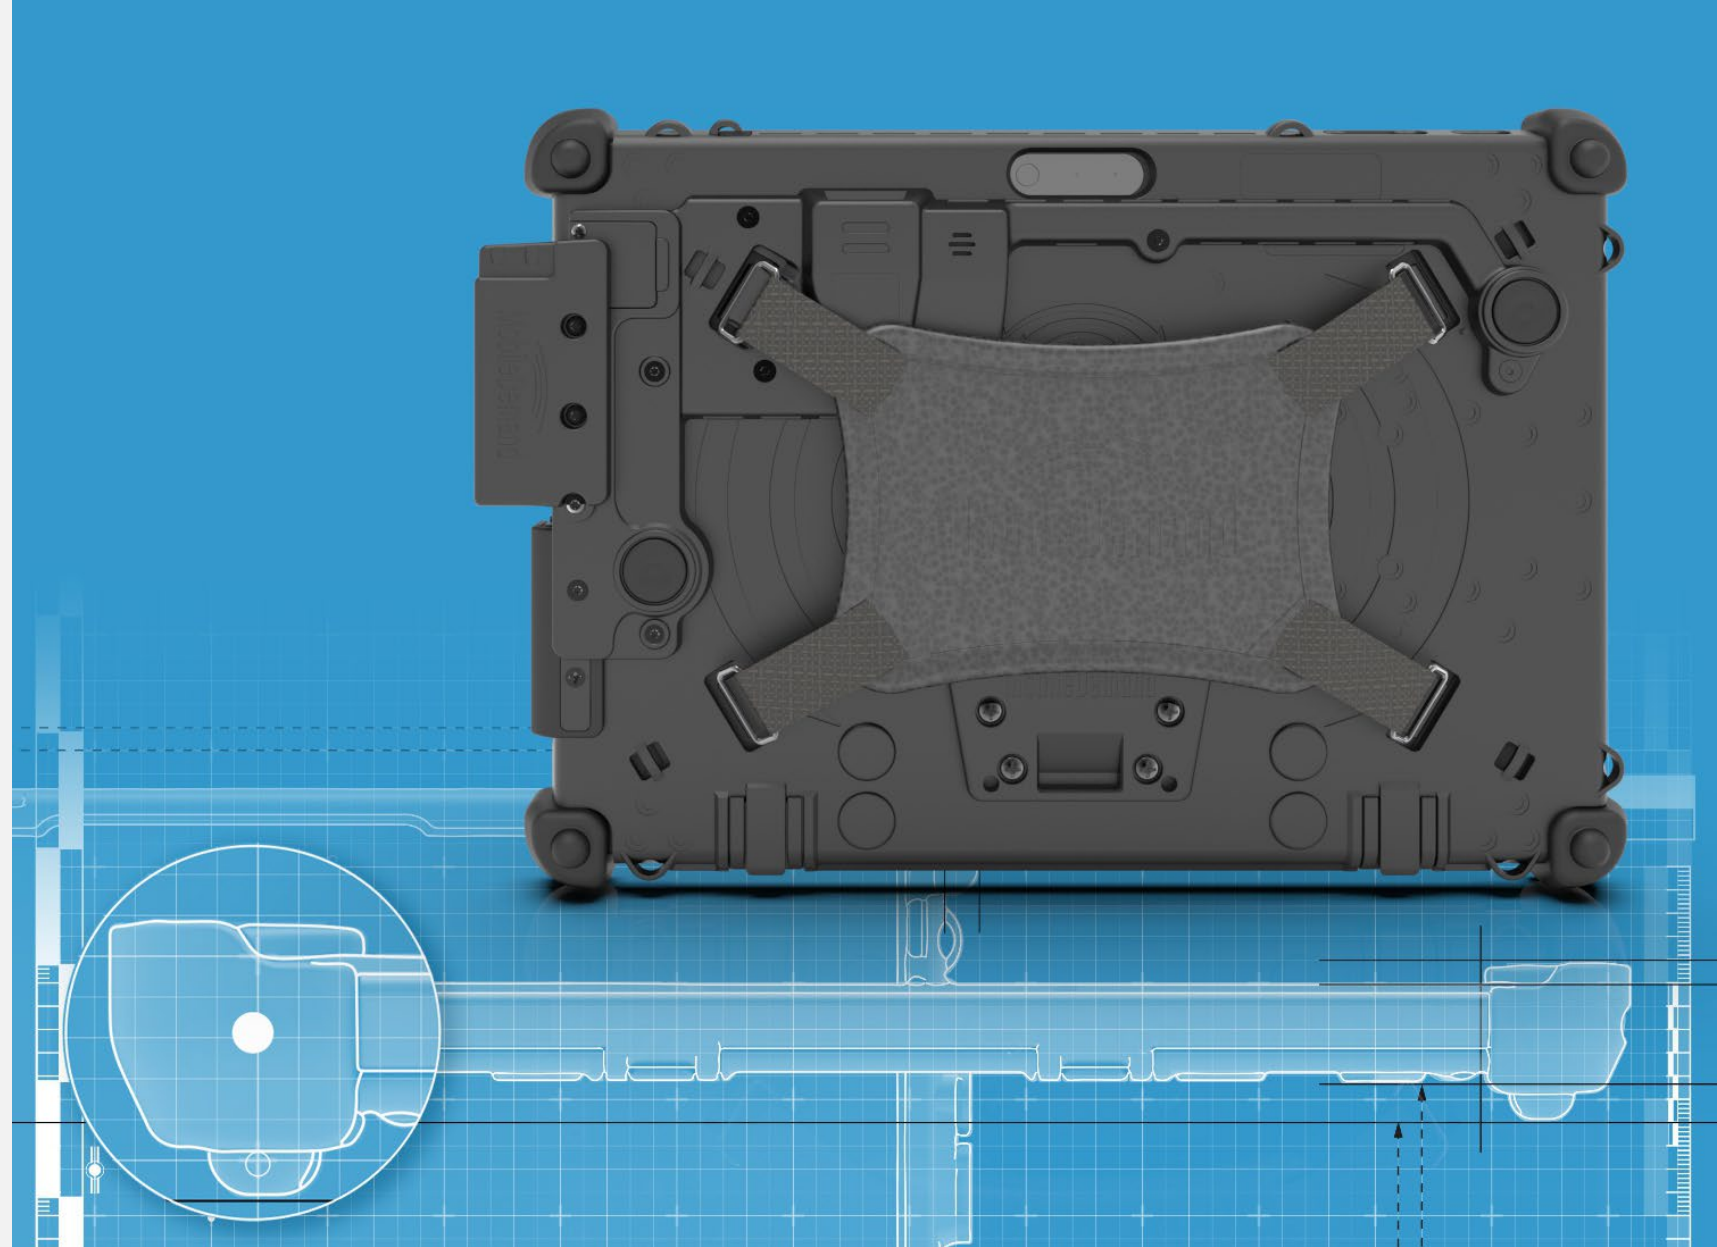

Performing multiple, critical functions from a single, mobile device enables faster checkout, shorter lines, efficient scanning, increased sales, and a lasting positive customer experience that creates repeat business.

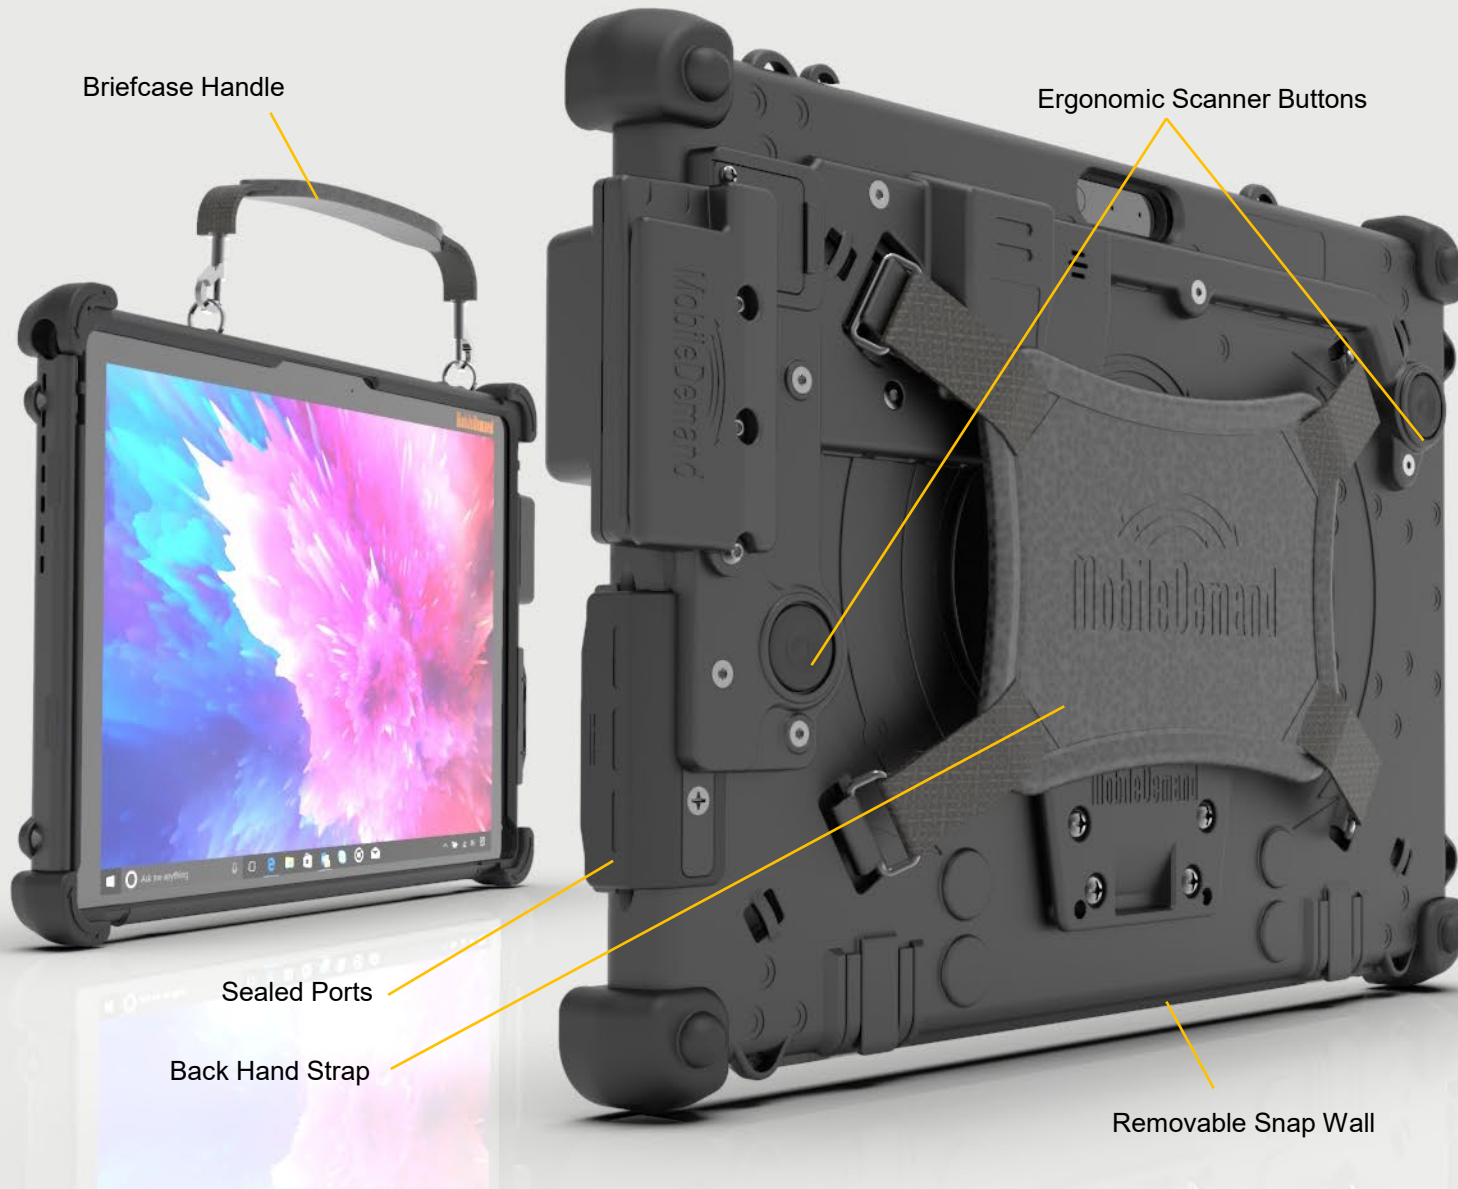

Key benefits

Protection

The barcode scanner and MSR are integrated into the rugged xCase for Surface using the same durable PC/ABS hard plastic outer shell materials. Combined with the proprietary shock-absorbing rubber corner bumpers, the xCase provides supreme tablet protection to withstand the most demanding environments.

Key benefits

Convenience

- Easy carry back hand strap and briefcase handle.
- Ergonomic scanner buttons allow comfortable operation.
- Sealed ports for added protection.
- Removable snap wall easily converts Surface device into a 2-in-1 laptop.

Key benefits

Fast

Quick and secure digital transactions are vital to the success and safety of businesses and their clientele. A Mobile MSR allows sales team members to interact with shoppers and quickly process secure transactions. Decreased lines and faster checkout increases sales and customer satisfaction.

Key benefits

Mounting

Unlimited mounting solutions are made possible with our ingenious snap plate, included with every xCase. Used in conjunction with MobileDemand's patented Quick Release Snap Mount System, mounting to checkout counters, desks, POS stations, walls, vehicles and so much more is simply a snap.

Safe and secure performance

High performance scanning

A best-in-class Honeywell barcode scanner comes built in for durable, fast and reliable scanning performance.

Preconfigured

The pioneering integrated magnetic stripe reader (MSR) is sleek, functional and is built to customer specifications for a seamless plug and play experience.

Secure

MagTek's MagneSafe® technology is a card authentication, patented and proven technology which reliably identifies counterfeit credit cards, debit cards, gift cards, ATM cards and ID cards at the point of swipe, before fraud occurs. Encryption scrambles the data when swiped, providing instant protection.
